

## **Thank YOU for your purchase and support!**

You may be curious as to why I chose this collection of stories and songs to be available on a flash drive and not on a CD. For one thing, CDs have always been costly, and I didn't want to pass that cost on to you. Second, I can fit a LOT more stuff on a flash drive. Finally, and more importantly, hardly anyone purchases CDs anymore. There are exceptions, and you may be one of them, but CDs are quickly going the way of the wagon wheel.

Almost everyone I know streams their music through companies like Apple Music, Spotify, and many others, all of which give mere crumbs of royalties to the artists who create the music! For this reason I want to thank you, immensely, for your purchase. Through your generosity, I'm able to keep bringing my music to you, which pleases me to no end!

## **Technical Stuff.**

I did all the recordings in my home studio using a Blue Yedi USB mic, the Garage Band recording application, and my Eastman E10 OM acoustic guitar with D'Addario light gauge strings.

## **Special Thanks.**

I want to thank Dave Synder and Bernie Drury, for their pictures, Carol Walker for her picture and package design, Mark Schafer for his consulting, Tom Griffith for his remarkable co-writing, and Dave Isaacs for his beautiful arrangement of 'In My Life.'
